

To Restore from Program:

Log into server computer in Splashtop.

Open IDrive on the computer you wish to restore a backup from. Select restore.

Select the file you would like to restore. Choose the location you would like to restore the file to.

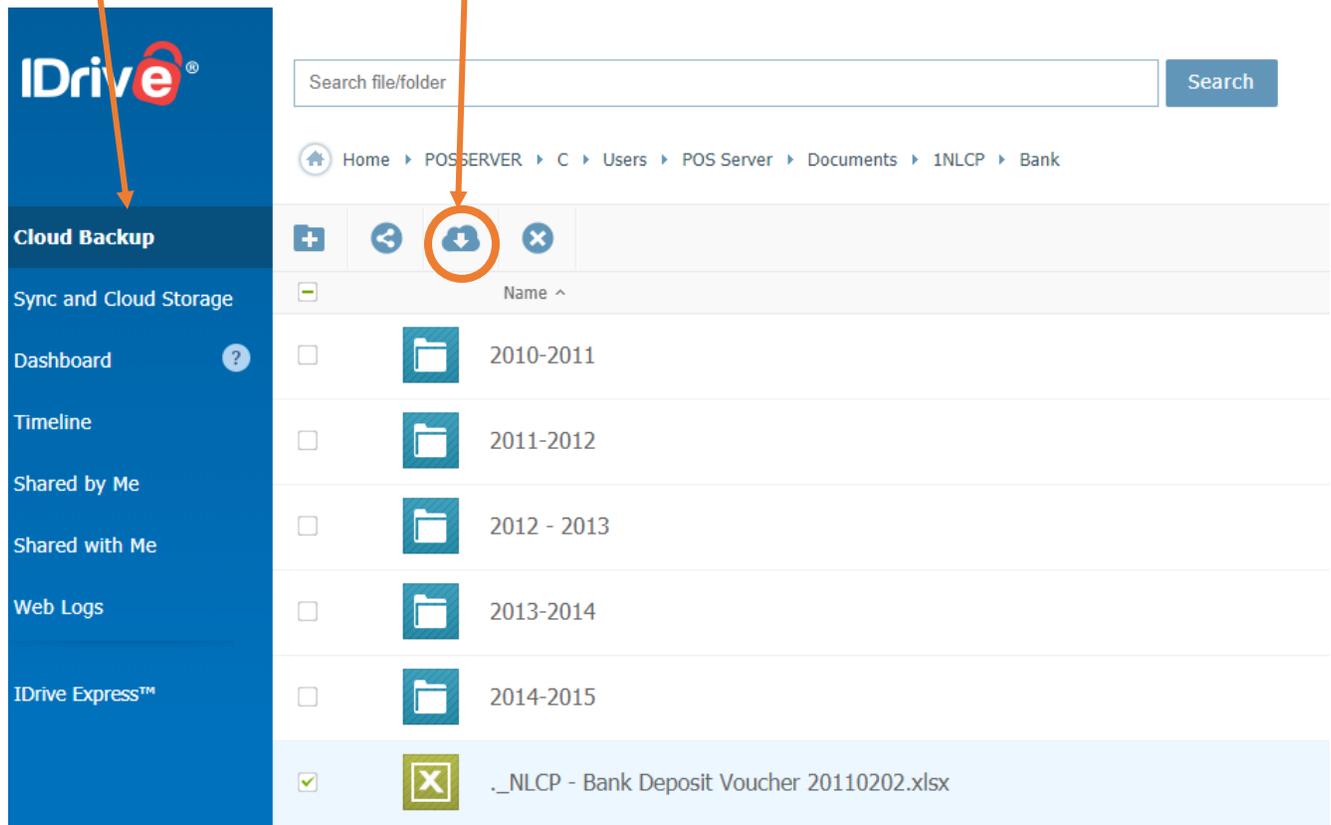

Select Restore Now and the file will be copied to the folder you chose.

To Restore from Web Browser:

Go to web browser (Chrome, Edge, etc.) and IDrive.com and log in

Navigate to Cloud Backup and the file to retrieve.

Choose the file and select download.
The file will then download onto your computer.

The screenshot displays the IDrive web interface. On the left is a blue sidebar with the IDrive logo and navigation options: Cloud Backup, Sync and Cloud Storage, Dashboard, Timeline, Shared by Me, Shared with Me, Web Logs, and IDrive Express™. The main content area shows a search bar at the top right, a breadcrumb trail (Home > POSSERVER > C > Users > POS Server > Documents > 1NLCP > Bank), and a toolbar with icons for adding, navigating, downloading, and deleting. The download icon is circled in orange. Below the toolbar is a table of files and folders:

	Name ^
<input type="checkbox"/>	2010-2011
<input type="checkbox"/>	2011-2012
<input type="checkbox"/>	2012 - 2013
<input type="checkbox"/>	2013-2014
<input type="checkbox"/>	2014-2015
<input checked="" type="checkbox"/>	._NLCP - Bank Deposit Voucher 20110202.xlsx
